# Biosurveillance Ecosystem (BSVE) Analyst Workbench

- **A single BSVE search goes across *numerous* data sources including PON dx data**
- **Results are filtered, prioritized and displayed in multiple data visualization apps**
- **Data visualization apps help user understand correlations among data**
- **Can drill into time series on any visualizer**
- **Can add any data visualization into a report with one click**
- **For text results, user-specified key words are highlighted for rapid summarization of information**
